ARTICLE I

SECTION 100 - PURPOSE

These standards are intended to govern the time, place, and manner in which special events may be conducted on county roads, county property or private property within the unincorporated areas of Lafayette County. These standards are necessary to ensure that an event's demands for health, fire, police, transportation, and other public facilities and services do not exceed the level of service that is normally provided in a particular area of the county and that the event does not create undesirable impacts on the residents of that area of the county.

Specifically, the purpose of these standards is to ensure that special events:

- a. Are conducted in a safe and orderly manner by requiring adequate provision of access, parking, sanitary facilities, utilities, security, ensuring the structural integrity and safety of temporary facilities, and requiring appropriate guarantees for site cleanup and restoration;
- b. Are reasonably suitable for the neighborhood, considering the duration and intensity of the proposed special event, and will minimize any significant impacts of the event on surrounding landowners, residents and businesses;
- c. Do not create public disturbances or become public nuisances, endanger life, health or public safety, disrupt traffic or threaten or damage public or private property.
- d. These standards are also intended to ensure that the organizers and sponsors of special events coordinate with governmental agencies and neighbors well in advance of the date the event will be held and accommodate the requirements of those agencies and the concerns of neighbors in planning for and conducting the event.
- e. The provisions of this Ordinance do not apply to proposed uses of County property subject to the Lafayette County Facility Use Policy and Multi-Purpose Arena Policy.
